Ferry Ales Brewery beers are handcrafted and brewed using traditional methods and the very best ingredients such as British malts including malted barley, rye and wheat. ## GLOUCESTER BREWERY | GLOUCESTER

We are a grass roots business founded by Jared Brown in September 2011. We started running the Brewery as a part-time project but we began growing so fast that it quickly became a full time venture. Further expansion meant we outgrew our existing brew house, we relocated to a disused malthouse (how romantic), set up there and have been manically busy every day since!

## RUDGATE BREWERY | YORK

Rudgate Brewery was established in 1992. The brewery is situated at the heart of Yorkshire in the Vale of York. The original brewery was situated in the former ammunition building of RAF Marston Moor Airfield which was home to the Halifax bombers that helped defend our country during World War 2. The name comes from the old Roman road of 'Rudgate' which runs through the airfield. This road led the Vikings along our vale defeating the Romans in their steps. This road and its history is what instigated the main theme of Vikings for the brewery.
