We select the best fruit that the locality has to offer and use our years of experience to craft ciders that are traditional, yet suit the modern palate. We don't believe in chemicals or additives, we work with nature, not against it and we think you'll agree.

# CELTIC MARCHES

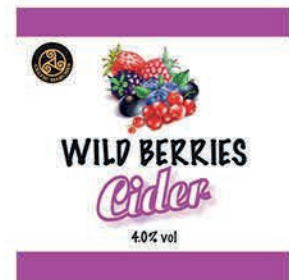

The family farm, in Bishops Frome, is home to 200 acres of established cider apple orchards and around 100 acres of hops. Their high yielding trees help set them apart from the market's commercial products. Their craft cider only ever contains 100% homegrown cider apples from their farm. It is only ever crafted from real juice and never from concentrate.

# THATCHERS STANS

WHAT CIDER'S SUPPOSED TO TASTE LIKE

Growing the highest quality apples is of vital importance to us – the best cider starts in the orchard. Our ciders are born of their surroundings. Myrtle Farm is as important to our cider as the apples themselves. Nestled at the foot of the Mendip Hills, the Thatchers orchards are our pride and joy. Over 25 varieties of apples are grown for our ciders. Each has its own role to play when it comes to flavour and aroma.

# SEACIDER

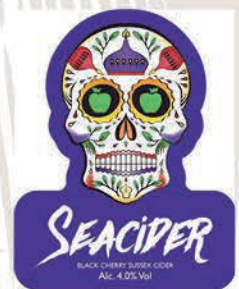

SeaCider was founded by Mark Francis who started out as a Brewer in Brighton, Sussex. He also noticed that many pubs did not stock local cider and there didn't seem to be many cider-makers left in Sussex. After gathering up as many local apples as he could, he tentatively started to make cider. At first there were three varying strengths of 'SeaCider' but soon Mark realised just what he could do by infusing natural fruit juices into the cider.

# GWYNT Y DDRAIG

Welsh farmhouse cider – shaped by the elements and made traditionally using freshly pressed fruit. In the autumn of 2001 we made our first few barrels of cider on the home farm here in Llantwit Fardre, South Wales. Placing flavour and quality at the core, our range is still traditionally made here on the farm using carefully selected ingredients, simple recipes and striking blends.
