# GOLDEN & DARK RUM

Gold rums, are medium-bodied rums that are generally aged. They have more flavour and are stronger-tasting than light rum, and can be considered midway between light rum and the darker varieties. Dark rums, also known by their particular colour, such as brown, black, or red rums, are classed a grade darker than gold rums. They are usually made from caramelized sugar or molasses. They are generally aged longer, in heavily charred barrels, giving them much stronger flavours.
